

PRIME LED112

Prime LED 112 is a rugged LED floodlight designed for demanding industries like construction, rental, rescue and military. A great amount of attention has been spent on usability making this unit one of the most flexible on the market in terms of attachment options and luminosity.

16 000 LUMENS

PRIME
DESIGN SWEDEN AB

SPECIFICATIONS

Prime LED 112 is built with durability and flexibility in focus. 16 000 Lumen, 6000 Kelvin "Bright daylight" color temperature with a dimmable output. 16A Schuko extension socket (Unit: IP67, AC Socket: IP54), Attachment: Multi axis rotating C-clamp for vertical or horizontal scaffolding or pipes. Back stand support when standing on flat surface or super magnet to be attached to a metal surface.

DATA

Height: 27,5cm without the C-clamp, 35,5cm with the C-clamp

Width: 21,5cm

Depth: 13cm

Weight: 3,5kg

Power: 20-100W

Voltage: 110-230VAC

Beam angle: 90x90 degree

Cable: 3 meters

Warranty: 3 Years

MULTI-CONNECT CAPABILITIES

The built in AC extension socket allows several units to be connected together. The extension socket can provide up to 16 Amps which allows for up to 30 units in a chain on 230VAC or 15 units on 110VAC.

SCENARIOS

Prime LED 112 is a multi industry purpose LED floodlight which can be adapted to many different scenarios from being attached to a tripod, scaffolding pipes to being attached with the built in magnet to a vehicle body or any flat metal surface.
